

Smart Pan-Tilt Wi-Fi Camera

D210 **3K**

See, connect, care.

Beans View, Great View

See, connect, care.

Introducing the latest model of the D210 series from Beans View that we designed for your home, business, or any indoor space that you need to care about. With easy plug-and-play installation, it's always there to protect your pets, kids and everything that matters to you. Simple to use yet rich in security features, this cute-looking gadget provides remarkable video quality and advanced smart features that make indoor protection a breeze.

Key Features in One Page

360° view

Control the lens to pan 350° and tilt 70° to see incredibly wide with far less blind spots

3K live feed & playback

Say goodbye to pixelated images and enjoy stunning 3K video quality from day to night for every moment

Smart color night vision

See in black-and-white (up to 10m) or use detection-activated spotlights for colorful details (up to 8m)

Tap-to-call button

Touch the button to call your loved ones, even easy for kids and seniors

Person detection (human shape-based)

Get alerted about a moving person in your detection zone in addition to simple motions

Auto smart tracking

Lock on the detected person to follow a complete activity even if he/she moves over a large area

Subscription-free alerts

Unlock all detection features with real-time mobile notifications without paying extra money

Easy pairing

Connect the camera to your smartphone effortlessly via Bluetooth¹

Super easy setup

Plug it in, connect it to your home Wi-Fi, and place it at your preferred spot, then you're good to go

Flexible patrol modes

Complete a time-scheduled security check at regular or customized viewing angles automatically

Sleep mode

Put the camera to sleep during private hours, so its lens turns black to stop all video activities

Local & cloud storage (Optional)

Purchase a large microSD card or subscribe to flexible cloud storage plans²

1 camera = 360° coverage

If you ever want one camera that maximizes your investment, the pan-tilt D210 is the one.

From left to right, up and down, it captures information from all directions to create a sharp panoramic view – even better than an owl does.

See everything in stunning 3K

Small but mighty, the camera captures everything in an amazing 3K resolution so you don't miss a subtle detail. You can always use the digital zoom on your app for things that you care more.

Tap to call, connect to care

With the camera, people can call for love or help, even if their smartphones are not around. Any of your family members can initiate a video call to your phone by simply touching the call button.

 Easy touch-to-call button

 Crisp two-way audio

Intelligent Detection Alarm

Now

Smarter than you'd expect, without a subscription

We don't lock out any smart features with a paid plan. The D210 is ready to serve you well right out of the box.

Whether you want to know about all activities, trivial or not, or prefer receiving alerts only when someone appears, the D210 knows the drill.

**Motion
detection**

**Person
detection**

**Adjustable
detection sensitivity**

**Customizable
detection area**

**Real-time
mobile alerts**

**Free without
subscription**

Auto-tracks to keep people always in sight

No more worrying about an incident happening outside a fixed point of view.

When a person appears on the camera, the D210 will immediately lock on the movement to track the person around, by rotating its lens automatically.

Patrols areas that you care, all automatically

Even no activity seems to take place, the D210 doesn't go off guard. You can pin down the most important areas in the 360° panorama,³ so the camera will automatically swirl to the exact viewing angles to check the situation during a scheduled patrol routine.

Peace of mind now extended through the night

The D210 doesn't need special goggles to see in pitch darkness and keeps your sweet dream unbothered. Choose among the three flexible night vision modes for the best protection.

F1.6 large-aperture lens

Built-in flashlights

Black/white mode
(Spotlights off)

Smart mode
(Activity-triggered lights)

Full-color mode
(Spotlights on)

From moments to memories, all safely stored

The camera automatically saves motion-triggered videos to keep a visual diary of your home.

Go subscription-free by using microSD cards to keep everything within the house. Or, opt for cloud storage with flexible plans.²

Data security and privacy protection

When you need privacy, just turn on the sleep mode or set a sleep plan to stop all camera activities. You are the only one who can access your data and have full control over them.

What's in the box

- | | | |
|---------------------|----------------------|-------------------------|
| - Camera × 1 | - Drill Template × 1 | - Quick Start Guide × 1 |
| - Power Adapter × 1 | - Mounting Plate × 1 | |
| - Power Cable × 1 | - Screw Kit × 1 | |

1. Only the 2K+ and 3K version of the Beans View D210 supports Bluetooth connectivity.
2. The microSD card is not included with the purchase of the camera. The largest compatible microSD card that you can insert into the camera has the capacity of 512GB. The availability of the cloud video storage services and the types of subscription plans may vary across countries and regions. Please refer to the service page on your Beans View App for final information.
3. To use the patrol modes, users can create up to 4 preferred viewing spots in one patrol route. The camera pauses at each viewpoint for 10 seconds and pans to the next until it has completed the entire patrol route. If the user does not set their own viewing angles, the camera will stop every 60 degrees to perform a full rotation.
4. All illustrations in this product sheet are based on simulations of the product and the Beans View App. Actual representation and user experience may vary as we update the product and the app features.
