- **Speed:** USB 2.0, up to 480Mbps
- **Power:** USB powered, ideal for low-power USB devices
- **Design:** Small, compact housing for travel use
- **Installation:** Simple Plug-and-Play installation

Description

The C4PUSB2 4-Port USB 2.0 Travel Hub adds four extra USB 2.0 ports to your laptop or desktop PC, allowing you to connect more USB devices through a single USB-A port.

Simply plug the hub into a free USB 2.0 port on your computer and connect low-power USB devices such as mice, keyboards, flash drives, card readers and headsets. All four ports can be used at the same time, making it a convenient solution when your notebook or PC does not have enough built-in USB ports, whether you are at home, in the office or on the move.

The hub is powered via USB, so no external power adapter is required. With data transfer speeds up to 480Mbps and a small, compact design, this USB 2.0 travel hub offers a space-saving and lightweight way to extend your everyday USB connectivity in your bag or laptop case.
