Description

The DONN21G 7-in-1 USB-C Docking Station expands a single USB-C port into HDMI, VGA, USB-C Power Delivery, three USB 3.0 ports and Gigabit Ethernet, providing a practical all-in-one hub for displays, networking and peripherals.

With HDMI supporting up to 4K 30Hz and VGA up to 1080p 60Hz, the docking station lets you mirror or extend content on two additional monitors simultaneously (one HDMI and one VGA), creating a dual-screen workstation. It offers an easy way to connect an HDTV, monitor or projector to USB-C devices such as smartphones, portable gaming consoles,

MacBook, Chromebook Pixel and other late-model USB-C laptops, suitable for home entertainment, office presentations and classroom teaching.

The USB-C PD port supports up to 100W for host charging, while the three USB-A 5Gbps ports based on USB 3.2 Gen 1 provide high-speed connectivity for external drives and accessories. The Gigabit Ethernet port delivers wired speeds up to 1000Mbps with Wake-on-LAN support. With plug-and-play installation and multi-platform compatibility for Windows, macOS and ChromeOS, the DONN21G is designed for everyday productivity and connectivity.
