Description

The HUBBIES04B 4-Port USB 3.0 Hub with USB-C Adapter expands a single USB-A port on your notebook or desktop into four USB 3.0 ports, giving you more connectivity for everyday peripherals and storage devices.

Simply connect the hub to a free USB 3.0 port on your netbook, notebook or PC and add up to four USB devices such as flash drives, external hard drives, keyboards, mice and other USB gadgets. The included USB-C OTG adapter lets you also use the hub with compatible USB-C devices such as smartphones, portable game consoles, MacBook, Chromebook and other late-model laptops, making it a flexible option for mixed USB-A/USB-C environments.

The hub is powered via USB, so no external power adapter is required for normal operation, while USB 3.0 SuperSpeed data rates up to 5Gbps support fast file transfers and responsive performance. With its compact design, bundled USB-C adapter and simple plug-and-play installation, this hub provides an easy way to extend your USB connectivity at home, in the office or on the go.
