- **Power:** USB powered, ideal for low-power USB devices
- **Design:** Compact and lightweight travel-friendly hub
- **Installation:** Simple Plug-and-Play installation

Description

The HUBBIES05B 4-Port USB 2.0 Hub adds four additional USB 2.0 ports to your laptop or desktop PC, allowing you to connect more peripherals through a single USB-A port.

Simply plug the hub into a USB 2.0 port on your computer and attach low-power USB devices such as keyboards, mice, flash drives, card readers and headsets. All four ports can be used simultaneously, making this a convenient solution whenever your built-in USB ports are not enough—whether you're at home, at work or traveling.

The hub is powered via USB, so no external power adapter is required. With data transfer speeds up to 480Mbps and a compact, lightweight design, this USB 2.0 travel hub offers an easy way to expand your everyday USB connectivity in a small, portable form factor.
