Description

The 119336 DisplayPort to DVI-D Cable is a digital video cable designed for connecting a computer to a monitor, TV, or home-theater system. Built to deliver stable and clear image output, it supports resolutions up to 1920 × 1200 at 60Hz, ensuring crisp and accurate video playback. With fewer internal wires and high-quality components, this cable provides reliable performance for both work and entertainment setups.

The 2.0m cable length offers flexible routing behind desks or media centers, while gold-plated connectors ensure improved signal integrity and long-lasting durability. A practical and dependable solution for bridging DisplayPort output to a DVI-D display.

Additional Information
