- **Speed:** USB 2.0, up to 480Mbps
- **Power:** USB powered, ideal for low-power USB devices
- **Design:** Compact hub for everyday desktop and notebook use
- **Installation:** Simple Plug-and-Play installation

Description

This 4-port USB 2.0 hub adds four extra USB ports to your laptop or desktop PC, allowing you to connect more USB devices through a single USB-A port.

Simply plug the hub into a free USB 2.0 port on your computer and attach low-power USB devices such as mice, keyboards, flash drives, card readers and headsets. All four ports can be used at the same time, making it a practical solution when your notebook or PC does not have enough built-in USB ports.

The hub is powered via USB, so no external power adapter is required. Each port is managed for stable operation with low-power devices, and with data transfer speeds up to 480Mbps in a compact housing, this USB 2.0 hub offers an easy, space-saving way to extend your everyday USB connectivity.
