Product Images

Short Description

- **Audio connections:** USB-C male to 3.5mm 4-pin stereo female.
- **Device support:** Connects 3.5mm stereo headphones, speakers, or headsets to USB-C phones, tablets, and laptops.
- **Built-in DAC:** Integrated DAC chip and copper wiring help ensure stable, low-loss audio transmission.
- **Premium build:** Aluminum shell with a small, compact form factor for everyday use.
- **Plug-and-play setup:** Works instantly with no extra steps.

Description

The 133474 USB-C to 3.5mm Audio Adapter is a compact, portable solution for connecting wired audio devices to modern USB-C laptops, tablets, and smartphones. Simply plug it into your USB-C port to use your favorite 3.5mm headphones, speakers, or headsets with no extra drivers required.

Built with an integrated DAC chip and high-quality copper wire, this adapter helps deliver clear, stable sound with minimal signal loss. The durable aluminum shell and small, lightweight design make it ideal for everyday carry, keeping reliable wired audio just a plug away wherever you go.
